57.30

* Suffix Number indicates Total Plates Per Cell.

** 0.25" must be added between cells for spacing purposes when calculating total battery length.

¹Nominal Amp hour capacity at the 8-hour rate for 1.215 S.G.

²Nominal Amp hour capacity at the 8-hour rate for 1.250 S.G.

All data subject to change without notice

Slide-Lock™ Post Seal

- No thermal stresses are introduced to the post seal, as with conventional burned-on posts.
- Slide-Lock™ design allows movement of post as plates grow during the battery's life without stressing the seal.
- O-Rings maintain seal between post and cover.

Per Cell kW* Discharge Rates in kW** 1.250 Specific Gravity

*Ampere values listed represent 100% of the cell's initial capacity.

**At 77°F (25°C) includes intercell connector drop.

†One minute rates to 1.50 volts per cell should only be used for short circuit calculations and not as performance data.

All data subject to change without notice.

When ordering new batteries, also remember to properly recycle your old lead-acid batteries. Federal and state regulations require lead-acid batteries be recycled. EnerSys' nationwide service organization can arrange pickup, transportation to and recycling at any one of our company affiliated smelters. Call 1-800-972-7372 for more information.

**24 Hour Service or Repair, call:
